LinkedIn GitHub Portfolio

Full stack developer with experience working with HTML, CSS, JavaScript, React, Redux, Node, Express, Sequelize, SQL and Postgresql.
I participated in the development of a web application about movies where, in addition to deepening my knowledge of the aforementioned technologies, I learned to work in a team using the SCRUM methodology, and also improved my abilities to solve problems and communicate with the team.

## Tech Skills:
HTML, CSS, JavaScript, React, Redux, Node, Express, Sequelize, SQL, Postgresql, Git, GitHub, Postman, Figma, Scrum.

## Soft Skills:
Positive attitude, collaboration, cooperation, curiosity, teamwork, responsability.

## Projects:
**Full stack developer (October 2022 - November 2022):**
I participated in the development of a web application about movies where I mainly worked on the backend, developing routes with Express and learned and applied frameworks like Cloudinary and Nodemailer. I developed the connection between users within the application so that they can follow each other and see their activity. I was also in charge of deploying the application using Railway for the backend and Vercel for the frontend.
Application - Code (Backend) - Code (Frontend)

**Full stack developer (September 2022 - October 2022):**
I fully developed a web application about video games that includes searches, filtering, sorting, and creation, using information from an API (rawg.io). During the development of the application, I put into practice the knowledge obtained during the first half of the SoyHenry bootcamp, such as HTML, CSS, JavaScript, React, Redux, Node, Express, Sequelize, SQL and Postgresql
Application - Code

## Experience:
**Customer service at a 24 hours convenience store (August 2020 - January 2022):**
I placed orders for merchandise which I then monitored and restocked. I kept the store clean and organized while attending to customers, which made me learn how to work under pressure. I also trained new employees.

**Internship at the Municipality of Chivilcoy (October 2018):**
Cleaning and maintenance of computers and printers in the building.

**Education:**

- Full stack developer - SoyHenry bootcamp (April 2022 - November 2022)
- First year of the University Technical Degree in Programming (UTN San Nicolás, Argentina) (2021)
- EEST1 Mariano Moreno, Computer Science specialization (2012 - 2018)

**Languages:**

- Spanish: Native
- English: C1 Advanced
